The lands set apart for original holdings in the quarter ended 30th June, 1922, were 187,409 acres, representing 380 blocks.

Retail Prices, Sydney.—From the information collected as to average retail prices of food in Sydney, it appears that in June, 1922, the prices of meat were 11 per cent. higher than in July, 1914; other food and groceries were 63½ per cent. higher; and the prices for the two combined were 50 per cent. higher.

The general level of prices showed a slight decrease, as compared with the previous month (May). Prices of meat were about the same as in May, and food and groceries were ½ per cent. cheaper; and the two combined showed a scarcely perceptible decrease.

Compared with the corresponding month (June) of 1921, meat was 18¼ per cent. cheaper; other food and groceries were 5 per cent. cheaper; and the two combined were nearly 8 per cent. cheaper.

The commodities for which the price levels are computed are those in every-day consumption.

Wholesale Prices.—During the June quarter, 1922, the general level of wholesale prices increased by 3 per cent., and is now 34 per cent. lower than the highest point reached in July, 1920.

In May there was an increase of 7 per cent. in the index number of agricultural produce, and a 15 per cent. increase in the index number of dairy produce.

The increase in agricultural produce was due to substantial increases in the prices of hay, chaff, bran and pollard, and in dairy produce to rises in the prices of butter and eggs.

All other groups, with the exception of textiles and meat, showed slight decreases during the quarter.

Of the 100 commodities used in forming the index numbers, 49 commodities remained unchanged during the quarter, 25 increased, and 26 became cheaper.

New Buildings.—*Metropolis.*—According to returns supplied by the several Town Clerks, the number of new buildings erected in the Metropolis during the six months ended 30th June, 1922, numbered 3,687, as compared with 2,436 during six months ended June, 1921.

Meteorology.—June quarter, 1922.—The rainfall over the greater portion of the State during the quarter was below the average. In April, although there was a fairly general rain during the first week, the falls were mostly light, except on the north-western and south-western slopes. In May the total rain was considerably below normal, except in parts of the Central and North Coastal Districts, and during June there was an absence of any widespread and heavy rain, although light rain fell on several occasions over a large part of the State. Snow fell on the Southern Highlands in each month, and in June extended to parts of the Central and Northern Tablelands and Western Slopes.

Labour Conditions in June Quarter, 1922.—The following particulars in regard to Employment and Dislocations have been taken from reports of the Department of Labour and Industry :—

The persons affected by unemployment included workers in the engineering and iron trades, also labourers, salesmen and clerks ; there was a scarcity of women workers.

During the June quarter, 6,456 positions for men and 2,820 for women were made available by employers through the agency of the State Labour Exchanges, and 6,188 men and 1,887 women were placed in positions ; in March quarter, 9,030 positions were made available, and 7,538 persons were placed in positions.

The dislocations were more serious than in the previous quarter, when 25,996 employees were involved, with the loss of 106,104 days.

In a number of cases the weekly and hourly wage rates have been reduced in accordance with the Board of Trade declaration of 12th May, 1922.
